Ing. Daniel Jarchovský  
COV TUV NORD Czech, s.r.o.

\*/ Qualification of welding supervision in accordance with a document EA 6/02 M:2013, EN ISO 14731:2019.

The documents used by the above-mentioned manufacturer are in accordance with the requirements acc. to EN ISO 3834-5, incl. EN ISO standards and other standards and regulations.

The report from the last audit is an integral part of the certificate.

## Certificate No.: 3170/014/20

### Other deputies:

Ing. Petr Kožák, born: 31.10.1987, IWE, „C“ – deputy for production and heat treatment.

Qualification of valid welding procedures should be adhered to during the welding process, and conditions for the performance of welder practical exams must be fulfilled in accordance with relevant standards and regulations for given area.

## General requirements:

According to ČSN EN ISO 3834-2

### Certificate revocation

Certification Body, which has issued this certificate, may revoke this certificate if:

- there are substantial doubts that welding was carried out according to respective standards
- there are substantial doubts that welding supervision was performed properly according to respective standards
- approved welding supervision is no longer available to the full extent
- valid welder and welding personnel certificates according to respective standards are not available
- welding according to respective standards is being carried out by welders and welding personnel that have not passed appropriate exams
- other conditions according to respective standards are no longer being fulfilled
- Certification Body is not allowed to perform yearly surveillance audits
- company waives the right to the certificate.

After certificate revocation, the company should confirm the certificate revocation to the Certification Body in writing.

If a valid certificate is to be renewed, it is necessary to request the Certification Body to extend the validity of the certificate at least **2 months** before the period of validity of the current certificate expires.
